MONDAY.P. M. The business at the Stock board was quite light to-day and without material change. Mohawk again feil off 14 per cent. The sale of State stocks were confined to \$25,000 Ohio Sixes, bought by one house, thought to be for English

account. No change in rates. Nothing doing in Foreign Bills. Rates nominal at 6 a 6 for Sterling; 5 45 a 5 431 fer Francs. About \$40,000 in Spanish Dollars goes forward to Boston for the East Indies. Alabama-has been sold at 10 discount. There was a little import in demand toward the close of business. Central is 40 a 45. It is getting worse in Georgia. 'At Macon it is sell-

ing at 40 and upwards. We learn that the attempt to resuscitate the Lewis Co. Bank has for the present failed, but the Cashier still hopes to succeed in his arrangements. We give the above on the

authority of a letter from Albany. It may not be correct. We have ascertained that the Bank of St. Mary's, which was reported in Georgia by some of its enersies to have failed, is redeemed promptly at 30 Wall-st, and has a large balance in cash at its credit here. The President we perceive advertises in the Augusta papers to redeem in specie there, and the Savanneh agency redeems at par in New-York Exchange, which is worth } per cent prem. By the official report of the Bank, Oct. 15, it appears that it then had in silver and gold \$45,942; bank notes, 30,915; cash bal. ance in New-York, 14,769. Total \$91,626. In addition it had of immediate assets, N. Y. Exchange \$11,137; due from banks, &c. \$9,936; other exchange \$5,500. Its circulation was \$66,765; deposites \$18,521; due other banks, \$480.-Total \$22,766. The statement as sworn to, showed two dollars and sixty-eight cents to every dollar of liabilities throwing out every bad and doubtful debt. On the 10th Nov. the circulation and deposites had decreased and the available means increased by collections.

The following sales of stocks were made at Boston-20 shares Boston and Worcester Railroad 13; per cent adv.; 25 de Boston and Previdence Railroad, 871 a 271 per cent: 50 do Western Railroad, 401 per sh.; 2 do Shoe and Leather Dealers' Bank, 942 per cent.

The Alexandria Guzette cautions the public against a new issue of spurious notes of the Leather manufacturers's Bank of this city. The Fives are dated in 1842, made payable to W. R. Jones, signed E. Platt, Cashier, and H. Tucker, President. The names of W R. Jones and E. Platt, are written in blue ink, that of H. Tucker with black and is badly executed. The vignette at the left of the note has a lady with a bady in her arms, sitting under a wheat-sheaf, with various persons reaping in the field, a farm house, &c. The notes look quite respectable, the pictures are pretty, and are calculated to deceive persons unacquainted with bank notes, though the words ' Manufacturers's Bank' are rather faint, and the part of the note on which they are pristed is thisner than the other, as if some other name had been erased, and the present words printed in their stead. In answer to a letter addressed to the Cashier of the U. S.

Bank the following was received. "In compliance with your request that I would state in writing the grounds on which the Trustees have refused to receive in payment of debts the notes of the Bank of the U. States upon which judgements have been obtained. We are advised that the Notes in question are merged in the judgement and in law extinguished; that we cannot recognize the judgements for such purposes unless the judgements were held by the debtors at the date of the assignment, in which case under the law of Pennsylvania the judgements would be set off against the claims of the Trustees and that the notes cannot be revived by a discontinuance of the suit. Markess-Carefully reported for The Tribune.

To Dr. Rush's Infallible Health Pills.— The great favor which this valuable medicine has gained during the few months it has been made known to the public, has proved beyond all question its claim to superior efficacy in the alleviation and cure of the numerous complaints which are common to mankind. We assure those who are afflicted that they need but try a single box to be convinced that this is no humbug preparation-even were not the name of the immortal inventor a sufficient guarantee for its genuineness and merit. In all bilious and liver complaints, pleurlsy, indigestion or costiveness, heartburn, piles, bradache, erystpelas and other diseases of the skin, debility, all complaints incident to females, the HEALTH PILLS have never yet falled to effect a cure. We are constantly receiving testimonials of the most extraordinary cures effected by this medicine. Read the following CURE OF LIVER COMPLAINT.

NEW-YORK, Nov. 6, 1842. Mr. H. G. DAGGERS: Sir-Injustice to the efficacacy of Dr. Rush's Infallible Realth Pills, one box only of which I purchased from you, I deem it but right to inform you of their surprising effects n restoring me to health. For the last two months I was disabled from my employment, tried numerous advertised remedies, was treated in the General Hospital without any occess, and finally adopted Dr. RUSH'S PILLS. Their effect was immediately evident-infusing vigor and health through my frame, relieving a constant pain in my side and deep oppression, promoting sleep, creating an appetite for food, and altogether invigorating a frame that was rapidly sinking into decay. I therefore deem it a duty I owe, not only to the public, but yourself, to publish the above testimony, which I have corroborated with a conscientious affi-

davit of the truth thereof. PATRICK GALLAGHER, Charlton-street, New-York Affirmed this 6 h day of December, 1842.

nents are now completed for supplying according to previous intimation, A FINE FUR HAT at a price (83 25) which shall render it emphatically the cheapest as well as lowest priced Gentlemen's Fur Hat ever on sale in this city. It is prepared in the same style which characterizes our finest article, and like that article is offered at a price at which it cannot be continued without an unusually rapid sale. The undersigned with all confidence affirms it to be for the gentleman and economist the most desirable Fur Hat yet offered. (020tf) SPENCER, 245 Broadway.

Griando Fish, Fashionable Hatter, 137 Broad way, would inform the gentlemen of New-York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at \$3.50, and warrants them 'equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4 50. These he recommends as equal to any hat sold in New-York at \$5 or under, and

challenges for them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the cheapest or the best Hat is desired, the inquirer will here be satisfied. Try him.

TT A Letter from Dr. Lardner on the SUBJECT OF LIGHT.

NEW-YORK, Oct. 20, 1841.—At the desire of Mr. James C. Hooker. No. 466 Breadway, I have examined a Patent Lamp sold by him, and submitted it to experimental trial by the usual Photometic methods and have found that when

by the usual Photometic methods and have found that when the burner acts with its greatest power the light yielded is equal to about twenty one sperm cardles of ordinary qualit. Affording this illumination the consumption of Hooker's Chemical Oil proceeds at the rate of the eighth part of a pint per hou, which, at seventy five cents per gallon, gives a cost of 11-6 cent per hour.

In the practical use of these Lamps it will not be advisable to push them to their maximum power of illumination. If it be assumed that they are adjusted to give a light equal to two thirds of their greatest illumination, the saving as compared with an equal quantity of light obtained from sperm candles would be about fourteen bundred per cent. I find it proper to observe, also, that the light afforded by these Lamps is remarkable for its heavin as and uniformity, and for the pureness of its color, which is entirely free from and for the pureness of its color, which is entirely free from and for the pureness of its color, which is estirely free from the pailid hoe which renders gas as usually manufactured, objectionable. The combastible, also, rises so freely from the reservoir to the burner that the Lamp possesses all the advantages of Carcel's principle without its complexity or its liability to get out of order.
